

Free App, no subscription

Airmate brings a paradigm change to aviation information services: both Airmate App and its embedded aviation database are provided **free of charge** with all monthly updates.

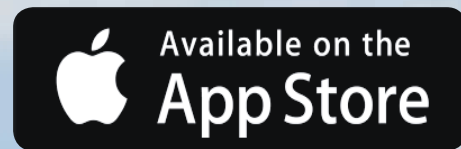

Worldwide topographic maps and numerous aviations charts such US sectionals or Open FlightMaps are also available at no charge.

Web Flight Planning

- You could view all information on any airport as easily as:
www.airmate.aero/airport/ELLX
- Plan at home on the web, using fly.airmate.aero
Your flights are saved in the cloud, data will be synchronized with your phone or tablet for your flight.

Airmate is available
free of charge
on **Apple Store** and **Google Play**

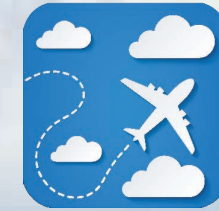

*Some features of IOS version
will be available later on Android*

Plan

Airmate offers free of charge all features helping you to plan your flights:

- **Worldwide aviation database** with free updates: airports, ultralight and private airfields, radio beacons, IFR waypoints, Visual Reporting Points, regulated, restricted and prohibited areas...
- **Free IFR and VFR airports plates**, often geolocalized, for Europe, the USA and more than 150 countries worldwide.
- **Graphical entry of your route** with rubber banding.
- **Weather and NOTAMS**
- And many other data, including airport contact details, nearby suppliers and services, webcams.

Fly

Airmate will help you to track the progress of your flight:

- **Moving aviation map** with free download of topographic charts worldwide and many aeronautical layers, including US Sectionals and OpenFlightMaps. Major commercial aviation charts may also be purchased.
- **Warning** when approaching or crossing restricted or regulated areas.
- **Off line access to aviation data** during the flights.
- **Flight path recording** with playback.
- **Flight tracking** available for your friends and loved ones.
- **Flight plan filing** with auto-routing*

* outside the USA flight plan filing is chargeable (around 1€ per flight plan filed)

Share

Thanks to **Airmate** social features, exchange with the pilot community!

- **Rate and comment** airports and associated businesses: FBO, fuel providers...
- **Share hot tips** with fellow pilots: restaurants, hotels...
- **Find** friends, an aviation club or a flight school, a plane to rent, an instructor near your home airfield.
- View **aviation events**, share your own events with the community.
- **Join** other pilots' flight or **welcome** other Airmate members onboard your next flight.
